Executive Summary: Growth, Competitiveness and Jobs

We have lost the first decade of the 21st Century... We CANNOT lose another!

The goals of this Strategic Model are:

• To achieve Real GNP growth of 3.0% by 2013
• To raise the credit rating of General Obligation debt to “A” and our global ranking in the WEF* to 25 by 2017
• To reduce the unemployment rate to 12.7% by 2013 and 10% by 2017; this means creating 125,000 and 260,000 jobs by 2013 and 2017, respectively.

• To establish the Economic Development Steering Committee and the Technical Advisory Committee as the main implementation bodies to ensure results and compliance with objectives
• To realign promotional strategies and foster Puerto Rico’s integration into the global economy by exporting goods and services, and transitioning into the knowledge economy
• To develop a world-class physical infrastructure to reduce the operational costs of doing business in Puerto Rico
• To reform Puerto Rico’s institutional and regulatory framework in order to turn government into a facilitator in the strengthening of the private sector

* WEF = World Economic Forum.
Agenda

1. The Economic Challenge has Historic Proportions
2. Strategic Model for a New Economy
3. Implementation of the Strategic Model
We lost the first decade of the 21st Century... We CANNOT lose another!

We have lost one decade in terms of economic growth

Compounded Annual Growth of Real GNP for every decade

- 1950s: 5.0%
- 1960s: 6.9%
- 1970s: 3.7%
- 1980s: 1.8%
- 1990s: 2.8%
- 2000s: -0.2%

Source: P.R. Planning Board. Estimate takes into account the last revision of FY 09 (06/09).
We are monitoring the economic activity on a monthly basis through the Economic Activity Index.

The contraction calls for extraordinary measures in the short and long-term.

Source: GDB.

* The GDB Economic Activity Index (EAI) is published on a monthly basis, and it is 98% correlated to the GNP. It is made up of 4 indicators: Total Payroll Employment (Establishments Survey), Total Electric Power Consumption (MM of kW h), Total Cement Data (MM of Bags) and Gas Consumption (MM of Gallons). For more information about the indicators, see Annex 1 – GDB Economic Activity Index.
Puerto Rico’s global competitiveness is regressing and the most problematic aspects of doing business in Puerto Rico are under the government’s purview.

Agenda

1. The Economic Challenge Has Historic Proportions

2. Strategic Model for a New Economy

3. Implementation of the Strategic Model
The Government has formulated a vision for Puerto Rico and a strategic model to reach it.

Plan for the Strategic Sustainable Development of Puerto Rico (PIDES, for its acronym in Spanish)*

“An economic development that is globally competitive and locally sustainable, where free market is fostered”

Tools of Sustainable Strategic Action and Coordination (“HACES, for its acronym in Spanish”)

- Economic Development
- Infrastructure Development
- Social Development

Strategic Model for a New Economy**

* As part of developing PIDES, 52 round table meetings and 6 public hearings were held throughout the Island.

** Its Spanish acronym is MENE = Modelo Estrategico para la Nueva Economia
Conceptual Framework of the Strategic Model for a New Economy (MENE)

**OBJECTIVE:**
Growth, Competitiveness and Jobs

**RESTORE GROWTH**
- Short-Term Stimuli
- Long-Term Growth Measures

**INFRASTRUCTURE**
- Physical Infrastructure
- Strategic / Regional Projects

**COMPETITIVENESS**
- Functional Infrastructure
- Key Reforms / Cost Reduction

**FISCAL AND CREDIT STABILIZATION**

**TRANSPARENCY AND COMMUNICATION**
Conceptual Framework of the Strategic Model for a New Economy
The Strategic Model is based on the free flow of information, which eases its widespread adoption.

RESTORE GROWTH

Short-Term Stimuli

Long-Term Growth Measures
Restoring economic growth is based on the effective implementation of short-term stimuli and the long-term development of the productive base.

<table>
<thead>
<tr>
<th>A combination of measures to restore economic growth</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Short-Term Measures of Growth</strong></td>
</tr>
<tr>
<td><em><em>Federal Stimulus Plan (ARRA</em>)</em>*</td>
</tr>
<tr>
<td>• Objective: Introduce a total of $6.044 billion into the Puerto Rico economy, of which 14% have been disbursed and will create 42,065 jobs</td>
</tr>
<tr>
<td><em><em>Local Stimulus Plan (PEC</em>)</em>*</td>
</tr>
<tr>
<td>• Objective: Introduce $500 million in stimuli at the local level, of which approximately $100 million are in the process of being disbursed</td>
</tr>
</tbody>
</table>

| **Long-Term Growth Measures for All Sectors**      |
| **Integration into the Global Economy**           |
| • Objective: Foster the development and strengthening of local companies capable of exporting competitive goods and services |
| **Transitioning into the Knowledge Economy**      |
| • Objective: Leveraging the industrial base to create new jobs and businesses. Creating new clusters and consortia with a focus on innovation |

*ARRA = American Recovery and Reinvestment Act; PEC = Spanish acronym for the Local Stimulus Plan. Cluster = Groups of inter-dependent and complementary businesses and institutions that make up an important area of economic focus and activity. (Michael and Porter, The Competitive Advantage of Nations, 1990.)
The Federal Stimulus Program is crucial in order to ease the current recession; 86% is yet to be channeled into the economy.

**Objective:**
- Introduce a total of $6.044 billion* into the Puerto Rico economy, of which 14% have been disbursed and will create 42,065 jobs.

**Investment / Economic Impact:**
- Total Investment:
  - Estimated: $6.044 billion
  - Disbursed up-to-date: $874 million
  - Estimated jobs: 42,065 direct and indirect jobs**

**Total Projected Disbursement up to Dec-31-09 total**: $1.778 billion*
- $530MM Work Pay Credit
- $33MM Public Safety
- $26MM Infrastructure (21 Projects DTPW; 16, PRASA; 43, Housing)
- $14MM Employee Training
- $10MM Energy Programs

**Challenges:**
- Federal Government’s bureaucratic process
- Need to further streamline the local process
- It takes longer to grant/distribute competitive funds.

* Data as of September 18, 2009. Puerto Rico achieved an allocation that is $1.044 billion higher than originally estimated.
** Direct jobs were estimated using a ratio of 10.87 direct, indirect and induced jobs per every $1 million in investment. Direct and indirect jobs represent 64% of total jobs, according to Federal government formula being used for ARRA.
The Local Stimulus Plan complements ARRA funds and will be adjusted* to achieve greater flexibility

<table>
<thead>
<tr>
<th>Local Stimulus Plan (PEC)</th>
<th>PROGRESS REPORT</th>
</tr>
</thead>
</table>

**Objective:**
- Introduce $500 million in stimuli at the local level, of which approximately $100 million are in the process of being disbursed

**Investment / Economic Impact:**
- Total Investment:
  - Estimated: $500 million
  - Disbursed up-to-date: $27.4 million

**Total projected disbursements up to Dec-31-2009 reach $154.2 million**
- $132.8 MM Municipal Improvements Program, and Strategic Projects
- $6.4 MM Employee Training
- $15 MM Bonus to Retirees
- SMB program (small / med businesses) guarantee increased to 100%
- Creation of bonus for mortgage closing costs for Housing Stimulus Program

**Challenges:**
- Low participation in guarantee loan programs by banks
- Limited effect of housing stimulus due to recession

---

*Senate Bill 1122 (PS 1122) was submitted on Sep-11-09.

**Includes: $9.7MM from PINI and Strategic Infrastructure Projects; $0.5 MM, CIPE; $9MM, Co-participation Program; and $8.6MM Employee Retraining. Of a $226 MM total, which excludes SMB guarantee programs. Data as of August 31, 2009.
Long-term growth measures to achieve sustainable economic development in a diversity of sectors

EXECUTIVE SUMMARY

**Objective:**
- To foster the development of local companies in order to expand their capacity to export globally competitive goods and services
- To foster investment and exports in the sectors of:
  - Advanced services (financial, computer technology, engineering, design, research and development, health and entertainment)
  - Biosciences (pharmaceutical, biotechnology and medical devices)
  - High technology (computer technology, telecommunications and aerospace)

**Strategies and Initiatives:**
- Re-establishing the Foreign Trade Board to design a new public policy toward the export of goods and services
- Revising and expanding the curricula of the Foreign Trade and Business Development Institute (ICEDE, for its acronym in Spanish)
- Realign promotional programs at PRIDCO, Tourism Company, and Agriculture Department. Re-organizing and revitalizing the offices of Puerto Rico abroad.
- Participating in more than 10 trade missions with counterparts from the most important markets to exporters.
- Establishing partnerships with local and international consortia to foster exports through treaties such as CAFTA-DR
- Fostering entrepreneurship through activities with high potential for export
Objective:

• To accelerate the transition to a knowledge-based and innovation economy, focused mainly in the development of human capital and intellectual property

• To foster capital investment in diverse areas

Strategies and Initiatives:

• Authorizing the Science and Technology Trust Fund to implement a new public policy regarding innovation, science and technology
  • Establishing a district of excellence in science and technology (Science City)
  • Establishing an office of technology transfer for commercial research and development (R&D) programs

• Re-launching clusters and supporting consortia that focuses on innovation; re-orient the promotion strategy and establishing alliances with the private and educational sectors

• Increasing the amount of public and private capital available to invest in R&D activities by using the FEDE* as cornerstone and by fostering the creation of private risk capital funds that invest on businesses focused on science and technology

• Developing the bandwidth infrastructure in all the regions of the Island and increasing the number of internet users

* FEDE = Acronym in Spanish for the Economic Development Special Fund.
The strategic model includes fostering strategic sectors, emphasizing competitiveness and sustainable growth

- **ENERGY REFORM**
- **GOVERNMENT RE-ORGANIZATION**
- **TAX REFORM**
- **LABOR REFORM**

**PLANNING AND FOLLOW UP**
The implementation of the Strategic Model has the goals of creating approximately 260,000 new jobs in the long-term, which entails a constant reduction of the unemployment rate.

**Target Goal:** reduce unemployment rate to 12.7% in FY13 and 10% for FY17

Among the measures that will generate more jobs are the short-term stimulus programs, the PPPs and the regional strategic projects.
PPPs, the stimulus programs and the strategic projects have the potential to create around 243,000 jobs directly and indirectly.

#### QUANTITATIVE GOAL OF THE STRATEGIC MODEL:
15% of GNP in investment* 

#### FISCAL AND CREDIT STABILIZATION

#### TRANSPARENCY AND COMMUNICATION

* Estimated investment over 4 years. This investment goal is calculated on the GNP base of FY2008, which added up to $60.787 billion.
Agenda

1. The Economic Challenge Has Historic Proportions

2. Strategic Model for a New Economy

3. Implementation of the New Strategic Model
Strategic plans at the agency level will be implemented through new management and accountability procedures

New implementation mechanisms to ensure compliance and results

Procedures to be implemented at the Steering Committee level and the Technical Advising Committee

- Bi-monthly progress reports regarding tools, reforms and strategic sectors
- Monthly evaluation and analysis of key indicators and performance measures per agency

Procedures to be implemented at the Board of Directors level

- Presentation and approval of annual strategic plans
- Presentation and approval of detailed operational budgets before the request of funds to legislature
- Revision of the productivity incentives in order to harmonize them with the objectives and priorities of the strategic model.

Conclusion: Growth, Competitiveness and Jobs

We lost the first decade of the 21st Century... We CANNOT lose the next one!

- This Strategic Model establishes the measures to re-activate the economy in the short-term, as well as creating the foundations to reconstruct the Puerto Rico economy in the long-term
- We will achieve Growth, Competitiveness and Jobs by:
  - Re-igniting existing industries
  - Attracting and creating new industries and jobs
  - Developing world-class infrastructure projects
  - Implementing institutional reforms that make us more competitive
- This model establishes a clear implementation strategy with defined Performance Metrics, and with a Steering Committee to ensure compliance with milestones
- The collaboration of all the sectors of the economy and all Puerto Ricans is an integral part of the success of this Strategic Model.
Strategic Model for a New Economy

GROWTH | COMPETITIVENESS | JOBS
